

ABOUT ZIPPMAT

ZippMat is one of India's fastest-growing integrated supply chain companies, transforming how businesses procure and manage a wide range of industrial materials. We simplify sourcing across both core and complex categories — from standard construction inputs to high-spec industrial supplies.

Our product portfolio includes **TMT bars, GGBS, fly ash, cement, bitumen, RMC, AAC blocks, lubricants, industrial oils**, as well as **MROs, safety gear and PPE, tools and tackles, wires and cables, fasteners, material handling systems, and storage solutions**.

We serve customers across a diverse set of industries — including **construction, infrastructure, engineering, automotive and EV, aerospace and defence, metal fabrication, casting and forging, plastics and injection moulding, and consumer electronics**.

At the heart of our offering is a **tech-enabled B2B marketplace + fulfilment platform** that solves key pain points around project delays, high procurement costs, and working capital inefficiencies. Customers benefit from:

- Real-time visibility on orders and delivery
- 100% compliant fulfilment with reduced TAT
- Credit access and intelligent risk underwriting

Our proprietary **supply chain operating system** integrates supplier onboarding, credit risk, procurement workflows, logistics, and finance — with automation, external partner portals, and real-time communication built in. This allows us to deliver not just materials, but **execution certainty**.

Since our founding in 2021, we've fulfilled over **₹500 Cr worth of orders**, completed **10,000+ deliveries**, and built a trusted supplier base of **500+ partners**, serving customers pan-India. Backed by top-tier investors like **Z47 (formerly Matrix Partners), Zephyr Peacock, and HDFC**, we're building the future of how India moves material.

Join us as we reshape Bharat's supply chains — making them faster, smarter, and more resilient.

Job Description:

Designation	Project/ Planning Engineer
Team/Function	Operations
Location	Hospet , Karnataka
Reporting To	Senior Manager
Industry type	Building Materials
Employment Type	Full Time, Permanent
Qualification Education	Bachelor's degree in mechanical engineering / civil engineering / industrial engineering
Required Experience	3-7 years of relevant experience in industrial project execution, preferably cement, slag, or mineral processing units > Prior experience in setting up greenfield/brownfield plants is an advantage

Role Description:

Key Responsibilities:

1. Project Planning & Execution

Prepare and update detailed project schedules using tools like MS Project/Primavera.

Track project milestones and ensure timely completion of each project phase.

Identify critical paths and provide early warnings for schedule slippages.

Support budget planning and monitor CAPEX utilization.

2. Vendor Finalization & Coordination

Coordinate the techno-commercial evaluation and finalization of vendors for mechanical EPC, civil works, and auxiliary equipment.

Facilitate procurement and delivery timelines in collaboration with supply chain and procurement teams.

Conduct regular vendor meetings and site inspections to track progress.

3. Site Management & Engineering Support

Act as the on-site engineering point of contact for mechanical equipment like ball mills, gearboxes, conveyors, and utility systems.

Liaise with civil contractors for foundation work, structural alignment, and site readiness.

Ensure compliance with engineering drawings, technical specifications, and safety standards.

4. Liaison & Regulatory Coordination

Coordinate for land approvals, statutory clearances, and local liaison activities.

Support documentation and compliance related to plant layout, environment, and utility setup.

5. Reporting & MIS

Provide regular project status reports to the Project Manager.

Maintain detailed documentation of site activities, contractor performance, and change requests.

Flag risk areas proactively and recommend corrective actions.
